

FFT Safe D-Scaler

WASTEWATER PRODUCTS

FFT Safe D-Scaler is an acidic solution to your scaling problems. Unlike competing products FFT Safe D-Scaler works on the scale and minerals but not employees or equipments.

Our Product will effectively remove mineral deposits such as hard water scale, calcium carbonate, sodium chloride and iron oxide. Takes care of scale in both municipal water and wastewater applications.

- Completely soluble in water
- Requires no specialized PPE equipment
- Gloves and protective eye wear is sufficient
- IF used as directed no chemical burns/injuries will occur
